Otsuka Techno launches a saliva collection funnel used for testing infectious diseases

Otsuka Techno Corporation (Head Office: Naruto, Tokushima, Japan; President and Representative Director: Kanji Tsukii; “Otsuka Techno”), a subsidiary of Otsuka Pharmaceutical Factory, Inc. (Head Office: Naruto, Tokushima, Japan; President and Representative Director: Shinichi Ogasawara), has launched a saliva collection funnel today.

This product is a funnel for collecting saliva used for testing infectious diseases and other purposes. It fits in a container with a diameter of 14-16 mm, and is designed to make saliva flow easily. After saliva collection, it can be transported as it is by discarding only the funnel and capping the container to be used.

Otsuka Techno is developing medical products and precision products as its core businesses, utilizing its advanced molding technologies for medical plastic container components. We will continue to contribute to society through manufacturing.

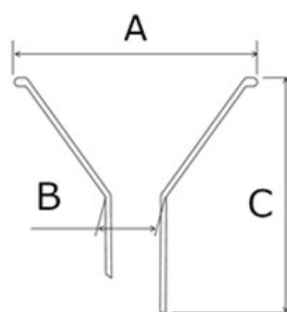

Based on the corporate philosophy of “Otsuka-people creating new products for better health worldwide,” the Otsuka Group is dedicated to contributing to the health of people around the world.
